Name: Joshua Schaff

This week's role: Scrum Master

Next week's roles: Developer

Duties performed this week: Started the creation of the Testing Document. Decided which parts/methods would be tested for the units and how to organize them within the document.

Finally, I began to create specific test cases.

Issues encountered: Finding a concrete way to format the document. There are not many examples of testing documents and the few there are often very different.

Issues resolved: Decided on a format for the testing document.
