P.A.L.S.S. Team Member Report 5

Name: Matthew Prescott

This week's role: Scrum Master

Next week's roles: Developer

Duties performed this week: This week I was tasked with updating the sprint review, as well as working on the application.

Issues encountered: I spent a long time this week trying to get the layout to work for our application. The problem is Flutter can be very versatile and allow many ways to do one a certain task. However, these various structures and ways of doing things do not mix well. Therefore, for the best of my sanity, I could only conclude that current state of the application needs to be scrapped and rebuilt in order to accomodate and actual UI implementation.

Issues resolved: None

Percentage contribution: 20%

Weaknesses:

● Procrastinator

Strengths:

●

Name: Matthew Ackley

This week's role: Developer

Next week's roles: Scrum Master

Duties performed this week: I tried to learn Dart to the point of being able to actively contribute to the application's code, which ended up in trying to create the base classes from the domain model.

Issues encountered: Implementing UI is still an issue for me, and the database remains uncompleted.

Issues resolved: N/A.

Percentage contribution: 20%

Weaknesses:

- Procrastinator

Strengths:

-

Name: Aiden Lammert

This week's role: Product owner

Next week's roles: Developer

Duties performed this week: this week I continued working on the Software Configuration Management document.

Issues encountered: None

Issues resolved: None

Percentage contribution: 20%

Weaknesses:

- Procrastinator

Name: Durgin Sweet

This week's role: Developer

Next week's roles: Developer

Duties performed this week: I learned dart to try and help with the coding to a greater degree.

Issues encountered: Had some problem correctly configuring Android Studio, and I still haven't got it working 100%. I'm also not super confident with how the UI code functions.

Issues resolved: Managed to figure out how to get the dart SDK to work

Percentage contribution: 20%

Weaknesses:

- Procrastinator

Strengths:

-

Name: Joshua Schaff

This week's role: Developer

Next week's roles: Product Owner

Duties performed this week: Continued working on the testing document. This process mainly included adding test cases.

Issues encountered: null

Issues resolved: null
